KIRWAN
PLASTIC SURGERY

Treatments

Forma Radiofrequency Facial

Our most popular treatment for over 7 years because it delivers! Lifts and tightens skin and improves elasticity, tone, and texture with absolutely zero downtime. A must try!

DEP Infusion Facial

Advanced technology from Italy that allows therapeutic topicals to penetrate deep into the dermis without damage to the skin. Combine with Japanese collagen, exosomes, and more!

Morhpeus8 RF Microneedling

The gold standard worldwide for treating laxity on the face and body. Improves jowls, neck rolls, crepe-y skin, sagging knees, stretch marks, large pores and acne scars.

SkinPen Microneedling

Microneedling with the world's finest serum - your own plasma! Your skin quickly transforms as fine lines and deep wrinkles are smoothed, pores disappear, and texture improves.

Lumecca IPL

Achieve pigmentation perfection with this light device that blasts away unwanted reds and browns. Erase years of sun damage in minutes.

Medical Grade Microdermabrasion

Sweeps away dead skin, dirt and oil for a glow that lasts. Deep cleansing helps skin absorb products more efficiently too!
